World Leaders in the Design and Manufacture of Marine Access Systems

tynegangway.com
We are specialists in aluminium gangways.

Established in 1934, Tyne Gangway has an extensive heritage in the manufacture of gangways and is the only business of its kind in the UK.

From factory premises based on the banks of the River Tyne, Newcastle, we design and manufacture marine access systems including aluminium gangways, accommodation ladders, shore based pedestrian access equipment and bespoke structures.

The business prides itself on providing excellent customer service and exceptional on time delivery to a worldwide customer base.

Tyne Gangway provides an in-house solution to meet customer needs, offering a comprehensive range of services including site surveys, design and fabrication, installation, inspection, certification, operator training, repair and maintenance.

Installing & Servicing in 65+ COUNTRIES

85+ YEARS of Knowledge & Experience

Supplying to 200+ CUSTOMERS

SECTORS

CRANE & MOBILE PLANT HIRE
MINING & QUARRYING
OFFSHORE OIL & GAS
DEFENCE INDUSTRY
AUTOMOTIVE MANUFACTURE
PORTS
RENEWABLES
We deliver exceptional quality products with excellent customer service, on time, worldwide. We are proud of what we do.

We provide a full fabrication and welding capability, employing time served fabricators and welders. The workshop is equipped with the latest synergic MIG welding equipment, to assist in producing higher quality welds.

Tyne Gangway’s dedicated design and engineering teams support the manufacturing process producing 2D and 3D drawing packages, allowing parties to visualise the product at the concept stage.

We pride ourselves in the quality of our service and our products. Our systems and processes are regularly audited and certified to ISO 9001:2015 and BS EN1090.

SERVICES
- DESIGN & FABRICATION
- SITE SURVEYS
- INSTALLATION
- INSPECTION
- CERTIFICATION
- REPAIR & MAINTENANCE
We are the only business of this kind in the UK.

Tyne Gangway products are manufactured with Marine Grade Aluminium, which is lighter than steel alternatives, is maintenance free and increases in strength due to the oxidisation process.

We provide an extensive range of aluminium gangway products that adapt to our customers requirements and application. Lightweight telescopic gangways are designed for variable length applications and can be supplied with stowage post for vessel storage if required.

Onshore and offshore gangways and bridges provide complete security between two points and can be supplied up to 50m in length with width to suit customer needs. These types of gangways feature anti-slip surface, fixed handrails, quay roller for tidal pontoon movement and lifting points for installation. Column and tower gangways typically feature 180 degree angular rotation and can be supplied with bespoke access options.

Tyne Gangway’s range of Dolphin and Pontoon Access gangways can be designed to a cranked or hinged specification with widths to customer requirements.

Carousel access systems are highly specialised and incorporate modular bridges fitted with custom accommodation ladders to provide operator access and egress.

Tyne Gangway also provides a range of accessories required during gangway installation or deployment, such as safety and side nets, ladder joints, gangway joints, self stowing gear and stanchions.

HISTORY OF TYNE GANGWAY

When Tyne Gangway was established in 1934 most of the world’s marine access equipment was manufactured from selected hardwood and built by skilled carpenters.

• 1950’s aluminium gangways introduced to market.
• 1960’s Tyne Gangway pioneered the introduction of lightweight aluminium alloys for manufacturing their gangways.
• 1970’s British Standards introduced for manufacturing and supply of gangways.
• 1980’s Tyne Gangway introduced welding to their manufacturing process.
• 2016 Tyne Gangway received Type Approval for the Shaia and Sala range of gangways.
• 2017 Benbecula Group acquire Tyne Gangway.
• 2019 Tyne Gangway relocates to new premises in Newcastle.
Our range of products:

- Telescopic Gangways and Wind Turbine Access/Walk to Work Systems
- Modular Gangways
- Marine Column and Tower Gangways
- Carousel Access Systems
- Onshore and Offshore Gangways and Bridges/Walk to Work systems
- Dolphin Access Gangways
- Pontoon Access Gangways
- Self-Levelling Stepped Gangways – Cruise Access
- Accommodation Ladders
- Naval Brows
- Shore Type A Gangways
- SHALA Gangway
- SALA Gangway
- Type C Gangway
- Bulwark Ladders
- Bespoke Marine Access
- Gangway Accessories
